

School Union 69

Acceptable Use Policy for Student Computer and Internet Use

The Union 69 School provides computers, networks and Internet access to support the educational mission of the schools and to enhance the curriculum and learning opportunities for students and school staff. The School Committee believes that the resources available through the Internet are of significant value in the learning process and in preparing students for future success. At the same time, the unregulated availability of information and communication on the Internet requires that schools establish reasonable controls for lawful, efficient, and appropriate use of this technology. The following procedures and guidelines are used to help ensure appropriate use.

1. Users are to receive instruction in the proper use of computers and the Internet through classroom instruction. The laptop or computer that students are being issued is an educational tool and should only be used in that capacity. Any MLTI laptop computer is the property of the State of Maine and registered to the individual Union #69 Middle Schools (Hope, Appleton, and Lincolnville). At this time, students transferring schools or exiting the Union #69 System are expected to turn in the laptop immediately. Other school laptops are owned by the school directly and are school property.
2. Before a student is allowed to use school computers and Internet services, parents must give their permission for their child to use the Internet for educational purposes as an individual by signing the “Computer/Internet Access Acknowledgment” and reading this policy’s terms and conditions for use of the Internet. The signed acknowledgment will be retained by the school. Parents also have the option of denying permission for their child to use the Internet.
3. Students, in particular, may then use the Internet in a supervised school environment. While reasonable precautions (MSLN filter via UMO) will be taken to supervise student use of the Internet on-site, the Union 69 schools cannot reasonably prevent all inappropriate uses, including access to objectionable materials and communication with persons outside of school, in violation of policies/procedures and school rules. The school unit is not responsible for the accuracy or quality of information that students obtain through the Internet. Parents can reinforce school efforts by encouraging or practicing appropriate use at home.
4. Student use of school computers, network, and Internet services is a privilege not a right. Students who violate the policy and/or rules may have their computer privileges revoked and may also be subject to further disciplinary and/or legal action.
5. Students and parents shall be informed of this policy/procedure on an annual basis through handbooks, school website and/or other means selected by the Superintendent.
6. The Superintendent shall be responsible for overseeing the implementation of this policy and the accompanying rules and for advising the School Committee of the need for any future amendments or revisions to the policy/rules. The Superintendent may develop additional administrative procedures/rules governing the day-to-day management and operations of the school unit’s computer system as long as they are consistent with the School Committee’s policy/rules. The Superintendent may delegate specific responsibilities to Building Principals and others that he/she deems appropriate.

Expectations for Laptop/Computer Use

*combined with Policy IJNDB-R

Laptop/Computer users are expected to behave responsibly in accessing and viewing information that is pertinent to the mission of Union #69. You are expected to abide by the generally accepted school rules and network etiquette. These include, but are not limited to, the following:

1. You should always have a teacher-approved topic related to research for school work before using the Internet. Proper citation of research references is expected at teacher's request.
2. Be courteous and respectful in your messages to others. Use appropriate language. Do not swear, tease, use vulgarities, or any other inappropriate language. Illegal activities including harassment are strictly forbidden.
3. Always try to do your best writing and proofread and edit your messages/work following conventional formats. Do not reveal personal information including your home address or phone number, or those of other users. Use school addresses and phone numbers only...even if you think you "know" your correspondent.
4. Students have no expectation of privacy in their use of school computers. All school computers remain under the control, custody, and supervisions of the school unit. The school unit reserves the right to monitor all computer and Internet activity by students. Messages relating to or in support of illegal activities may be reported to the authorities. Inappropriate use will result in parent notification, take home privileges being revoked and/or a laptop without student admin rights to be assigned (LCS).
5. Each use of personal e-mail accounts at school by students require teacher permission. School-based e-mail accounts are monitored and are for educational purposes. Student e-mail projects (pen pals, classroom-based) are carefully planned with the Technology Coordinator and screened by the classroom teacher. Inappropriate Use will result in parent notification and account being revoked.
6. Only public domain items such as video, text, images, and/or sound for school assignments can be downloaded from the Internet. Unauthorized downloading of information to student devices will not be tolerated.
7. Do not use the network in such a way that you would disrupt the use of the network by other users. Students need to use their own, individually assigned computers/laptops and log-ins, not another student's or a teacher's log-in. Passwords must be kept confidential.
8. A laptop should never be left unattended during and/or after school extra-curricular activities. If a laptop is found, it must be turned in to the Technology Office.
9. Care of Computers/Laptops:
 - Do not physically mark up the laptop or it's storage case at all. Computers should be clean at all times. (No writing on with markers, putting stickers on, etc.) Expect regular checkups. Keep all food and drinks away from computers.
 - All laptops will be kept in a special cart in the classroom. Students are expected to return laptops to their assigned slot.
 - Laptops should be carried to other rooms in zipped/closed storage cases at all times. DO NOT recharge in storage cases.
 - The storage case has a clear display area where the student's name can be displayed.
 - Any inappropriate use or neglectful care of a laptop or it's carrying case observed by anyone should be reported immediately.
 - The recharging of laptops will take place at least once daily at home or in the charging station if not taken home. This will generally occur during non-instructional time (lunch/recess), at the end of each school day, school field trips, weekends, and throughout school vacations unless the student and his/her family have signed it out (See Sign Out Procedure).

Signing Out

- The laptop issued to each student is an educational tool and should only be used in that capacity.
- In order to sign out a computer to take home, parents and students must attend a Family Orientation Meeting.
- Students must sign out and sign in their laptop and carrying case with their homeroom teacher.
- Sign outs will occur immediately after school unless alternative arrangements are made with the homeroom teacher.
- Laptops may not be used on a bus or taken in locker rooms, on playing fields, courts, etc. We recommend making arrangements in advance with parents & teachers for laptop pick up when students are participating in extra-curricular activities.

At Home

- When at home, the laptop will ALWAYS be used in a common family location with adult supervision.
- Parents/Guardians will have their child's login password upon request in order to supervise student's usage at home.

Return

- The laptop and its carrying case will be signed back in before or during homeroom on the first school day following the day it was signed out.
- Parents will be contacted directly if a student returns to school without the computer and will be expected to bring the computer to school immediately.
- Failure to check the computer back in on time will result in the school revoking the privilege of signing out your laptop to take home. Repeated offenses will result in more serious consequences.

Responsibility

- All laptops must be returned to school fully charged and ready for use.
- If the laptop is stolen while signed out to you, it should be reported to the local police authorities and Lincolnvile Central School principal immediately.
- Replacement costs and/or the repair for damages that are not covered by the warrantee and occur to the laptop and its carrying case while it is signed out are the sole responsibility of the undersigned parent/guardian (via the MSMA insurance or other insurance as indicated below.) The laptop is only insured in the state of Maine. If a student needs to transport his/her laptop out of state, a parent or guardian must complete an agreement to accept full responsibility for the laptop.
- If you, as the parent/guardian, would rather that the computers NOT be brought home, please inform the school immediately.
- Failure to comply with the school's policy for laptop sign out may result in your sign out privileges being revoked.
